FAMILY RECOVERY**

MDFR MULTIDIMENSIONAL FAMILY RECOVERY

RESEARCH OUTCOMES

RCT STUDY 1

Moms who enrolled in substance abuse treatment

RCT STUDY 2

Mom with positive child welfare dispositions 18 mos. after treatment

QED STUDY 1

Moms who graduated from drug court

Moms reunified with their children

WHAT IS MULTIDIMENSIONAL FAMILY RECOVERY (MDFR)?

MDFR Family Recovery addresses the complex, multi-generational challenges facing families affected by parental substance use and child welfare system involvement. The approach is based on research suggesting that the best way to improve immediate and long-term outcomes for vulnerable children is to repair and strengthen the whole family.

MDFR COUNSELORS WORK IN 6 DOMAINS:

Parenting as individuals
Children
Parenting/Co-parenting
Parental Intimate relationships
Family relationships
Community/basic needs

*NOTE: MDFR was known previously as Engaging Moms/Parents Program (EMP and EPP).
