YOUNG ADOLESCENT STUDY

**BETWEEN 2014 AND 2019,
OUT OF 6,655 MDFT CASES...**

78% were in school or
OF YOUTH working at discharge

School performance
IMPROVED

30%

School attendance
IMPROVED

28%

NATIONAL
DROPOUT
PREVENTION
CENTER/NETWORK

The National Dropout Prevention Center **lists MDFT as a Model Program** in their database of research-based interventions.

MDFT and the SCHOOL SYSTEM

Although MDFT is a family-based treatment, interventions are not limited to the family. MDFT therapists work and collaborate directly with school officials and teach families the skills to successfully navigate the school system so success can continue after the completion of treatment.
