MDFT OUTCOMES: OUT-OF-HOME PLACEMENTS

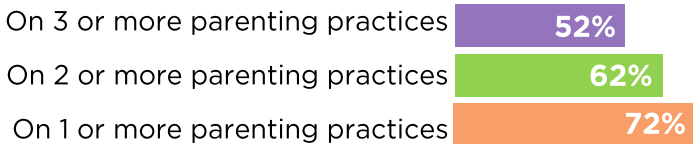

RESEARCH OUTCOMES

DAY TREATMENT STUDY

Youth discharged to an out-of-home placement

CALIFORNIA STUDY

DAY TREATMENT STUDY

Liddle et al (2006). *American Journal on Addictions*, 15, 102-112.

CALIFORNIA STUDY

Schmidt et al (1996). *Journal of Family Psychology*, 10(1), 12-27.

IN 2016 & 2017, OUT OF 2,600 MDFT CASES...

85% OF CASES were living in the home at discharge

90% OF FAMILIES had no new child abuse or neglect reports during treatment

there was an average
33% REDUCTION
in family violence

The California Evidence-Based Clearinghouse for Child Welfare

gives MDFT their highest possible Scientific Rating of

'WELL-SUPPORTED BY RESEARCH EVIDENCE'

“ Before, we used to fight and hate each other, and she'd be screaming and going to her room. And now we fight and then she comes and says, mom, please tell me that you love me. And I say yes, I love you. I love you more than you think. And we sit down and discuss our problems without screaming and saying bad things to each other. ”
